

# IAS-K 7-Pillar Resilience Model

**Enabling Factors:**  
Community Participation  
Partnership (Quadruple helix)

**Pillar 1:  
Natural resource  
management &  
environmental  
sustainability**

What it addresses:  
Nutrition  
Availability of food  
Poverty reduction  
Environmental  
regeneration  
Climate change / local  
resilience

Approaches and tools  
- Ecosystem-based and  
NBS solutions  
- Innovative farming  
methods  
- IWRM

**Pillar 2:  
Governance and HRBA**

What it addresses:  
Better service  
delivery.  
Policy implementation  
Improved transparency  
and accountability  
Community Empowerment

Approaches and tools  
- Advocacy - awareness  
creation on SDGs  
- Dialogue for change  
with duty bearers.  
- DRR contingency  
planning training  
- Community strategy  
plan for DRR & CC

**Pillar 3:  
Infrastructure  
development**

What it addresses:  
Access to natural  
resources  
Climatic shocks and  
stresses  
Food security –  
Enabling factors

Approaches and tools  
- Water pans, Roof  
catchment, boreholes  
- Building of gabions  
- Gravity-driven  
irrigation  
- Demo gardens  
Eezer ambulance  
Early warning systems

**Pillar 4:  
Peace building, safety  
& security**

What it addresses:  
Equitable sharing of  
resources  
Cohesion  
Conflict resolution

Approaches and tools  
- Do No Harm Approach  
- Community asset  
management (MoU)  
- Conflict resolution  
Farmer herder, Human  
wildlife conflict  
- C.C Long term  
analysis  
- Bylaws

**Pillar 5:  
Education &  
empowerment**

What it addresses:  
Behaviour change  
Skills training  
Knowledge gap training  
Economic empowerment,  
business training

Approaches and tools  
Manuals  
Workshops  
Excursion visits  
Demonstrations  
Linkages  
Peer-2-Peer platform  
CBO strengthening

**Pillar 6:  
Community health and  
water**

What it addresses:  
Nutrition  
Access to water  
Water quality  
Preventive healthcare

Approaches and tools  
- Expert consultation  
for water-health IWRM  
- Ecosystem service  
restoration  
- Promote local  
knowledge for  
resilience  
- Training - water  
purification and  
innovation

**Pillar 7:  
Economic Empowerment**

What it addresses:  
Economic empowerment  
Access to essential  
services  
Poverty and life  
Quality  
Asset management  
Community financial  
sustainability

Approaches and tools  
- Business and  
financial training  
- innovation and  
alternative livelihood  
creation  
- Provision of Seed  
capital, inputs,  
connect to  
institutions

**Regional  
Resilience**

## Foundation: Research and Needs assessment

Addresses: Foundation for activities and methodology, risks

Approaches & tools:  
Vulnerability assessment  
Specific community needs assessment  
Risk analysis  
Organization capacity assessment  
Climate and environmental analysis
